Minimalist Rustic White

We think our suites work well with a minimalist rustic white dotted with spots of colour which is why we include white linen table cloths and teal napkins to compliment our teal and grey chairs. We are more than happy for you to tweak or build on this with your own ideas.

About Us

We don't do weddings! Well...we certainly don't do weddings in the more traditional sense.

What we do, say 'I do' to are weddings and civil partnerships that are unique and suitably special for the happy couple to remember, always.

A wedding celebration that is led by you – informal, relaxed, fun and outside the usual mould.

We start with a blank canvas, inviting you to sketch out your vision for the perfect day or weekend celebrations. Menus, music, flowers, decorations and themes can all be determined by you.
